

Total Scope

The Leader in Medical Device Repair & Services

TSI WEB PORTAL

GETTING STARTED:

With our cloud-based web portal, you can access your account on any web browser, day or night. It's included at no cost with no additional software required so you can monitor every repair. Contact your sales representative and they can walk you through the quick and easy registration process.

Portal Advantages:

- On-line account management 24/7
- Real time repair tracking - monitor updates on every repair
- Approve work orders online at your convenience
- View scope repair history
- View facility equipment inventory
- Submit a repair request form anytime - day or night

"The TSI Web Portal is a great tool. No more looking through files or records to see your repair history or account info. All I do is log on and, Voila!"

- Vickie Browne
Atlanta South Endoscopy

"The Portal is a very useful tool for getting scopes processed and repaired quickly. By simply logging on, I can get a work order started, print out an overnight shipping label and ship out the scope that day with no waiting."

- Mr.Shannon Hull, CBET
Kettering Medical Center
